

Moonlight modular furniture system

1. *Moonlight is a modular hotel furniture system, designed in cooperation of Armet Bis with Professor Halina Kościukiewicz from the Academy of Fine Arts in Gdańsk. With modern designer's approach and years of experience we have achieved functional simplicity, as well as accurate and robust design of our furniture. With a choice of unique cabinet shapes you will be able to create an exceptional interior design. The system of comfortable beds with heads and seats for the beds and dressing tables are designed for relax. Other furniture shapes optimally compliment the room space with their modern design, creating a unique atmosphere to relax after an exhausting day.*

2. *Moonlight hotel furniture is available in four basic finishes: stone pine chocolate brown, Cordoba olive tree dark, wild oaks cinnamon, makassar. The basic construction material is particle board 18 mm thick, the edges of tops, crowns and fronts are finished with PVC band 2 mm thick, in the board's colour.*

3. *System components:*

- a) wardrobes*
- b) chest of drawers*
- c) dressing tables*
- d) bed heads*
- e) bed seats*
- f) dressing table seats*
- f) night tables and cabinets*
- g) accessories,*

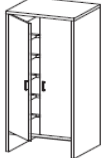

Moonlight wardrobes

Material and accessories

The wardrobes are made of E1 class particle board of improved strength coated with melamine on both sides. Board edges are finished with PVC edge band thickness 1 or 2 mm, in the board colour. The doors are delivered with quality concealed hinges and recessed aluminium-silver handles. The 3 mm thick mirror is finished with a 10 mm chamfer all around. The open part houses hangers and a hanger rod, and in the closed part, there are adjustable shelves. The wardrobes feature height adjusters for easy levelling.
